

Veckta — Technical Diligence

Confidential

Technology Overview

Veckta's microgrid design-and-procurement platform optimizes distributed energy resources for commercial and industrial sites.

Technology Readiness

Dimension	Assessment
TRL	7-8 (field-validated)
Scale-up risk	Low-moderate
IP	2 issued patents, 3 pending

Key Risks

- Dependence on third-party hardware supply.
- Project-based revenue lumpiness.

Intellectual property and patent landscape reviewed; freedom-to-operate opinion pending from counsel.
